

PANAMERICA
Formas e Impresos S.A.

Bogota, Colombia
November 28, 2000

To Whom It May Concern:

In August of 1999 we installed 15 Panamax Primax products in the forms and books factory. The cause of the purchase was to solve the problems that were presented periodically by lightning and voltage spikes in our equipment. Now we do not have these problems that before constituted a very high cost for our department.

We will continue to install this equipment in future additions and recommend to all companies that use electronic or mechanical equipment or PLCs to use this equipment.

This letter was completed on 28th day of November, 2000.

Sincerely,

Jairo Rodriguez Ruiz
Electrical Engineer
